“UKUBAMBA”

SAFETY NETS

FOR THE

**MINING & CONSTRUCTION
INDUSTRIES**

***Ukubamba** Safety nets are manufactured to the highest quality standards for High Density Polyethylene to withstand the arduous working conditions found in the mining and construction industries.*

***Ukubamba** Safety nets are specially knotted to prevent the aperture mesh from changing, resulting in a correctly formed safety zone when you need it. Being manufactured from the highest grade HDPE raw material, **Ukubamba** Safety nets will not run, rot or absorb moisture, no matter what the environmental conditions happen to be.*

Ukubamba Safety Net Range:

- (a) Standart Safety Net with Tie Cords
- (b) Reinforced Safety Net with either Carabine Safety Hooks or Safety Lock Rings.
- (c) Tunnel Development End Safety Net with center support and fly cords.
- (d) Scaffolding or Workface nets.
- (e) Orange Barrier Netting.

NOTE:

***Ukubamba** Safety nets are manufactured in compliance with SABS Report 3024/82680/98. In this test, the Safety Net held an impact load of 14.7 kj, equal to a 100kg body falling 15m*

SPECIFICATIONS

Tensile Strength of the “**UKUBAMBA**” material

Industrial Polyethelene (16) Braids

Diameter ± mm	M/ kg	Breaking Strength (kg)
6	75	400
10	40	704

STANDARD SIZES

Part No.	Size
SN020020	2m X 2m
SN030030	3m X 3m
SN030040	3m X 4m
SN030050	3m X 5m
SN040060	4m X 6m

***Ukubamba** Safety Nets can be manufactured to **any reasonable size** and customer requirements.*
