Pre-Stressing Units. Pump Equipment. Mining products.

VENTALATION CURTAINS

FOR THE

MINING & CONSTRUCTION
INDUSTRIES

Vent Mattresses are manufactured to the highest quality standards for Polypropylene coated material to withstand the arduous working conditions found in the mining and construction industries.

Vent Mattresses are spaced with mine twine and washers to support the material and help construct the wall effect. This product is made in-house for the last 15 years.

Vent Mattresses Standard Range:

(a) 0.75m x 5m Bags
(b) 1.00m x 5m Bags
(c) 1.30m x 5m Bags
(d) 1.50m x 5m Bags

Special sizes can be made to fit

Vent Curtains are manufactured to the highest quality standards with Polypropylene 114gsm wit coated 1cm red strip Material. This material is Flame Retardant according to the NCB245 Specifications for the mines.

Vent Curtains can be supplied in rolls or 10 m sheets.

Vent Curtains Standard size range

(e) 1.37m x 10m
(f) 1.50m x 10m
(g) 1.80m x 10m
(h) 2.00m x 10m
(i) 2.45m x 10m

All this sizes can be supplied in 500m rolls

Fabric specifications

Quality : M06373____

Type : Flame Resistant

Nominal Widths : 137/150/180/200

Weave ground : PLAIN

Material : Polypropylene, Flame Retardant
acc. NCB 245:1988

Colour : Natural

Fabric weight : nominal fabric : 87 gr/sqm
range : 83-96 gr/sqm

Nominal : 117 gr/sqm
Min : 112 gr/sqm

Warp Density : 10.00 Ends per inch (39.4 ends per 10cm)

Weft Density : 8.00 Picks per inch (31.5 picks per 10cm)

Tensile strength : SABS 0221-1988
  Warp min : 14.1 kN per meter
(1150 N tests sample)
  Weft min : 11.1 kN per meter
(890 N test sample)

Elongation : SABS0221-1988
  Warp : 10-20 %
  Weft : 08-20 %
